

HELP PROTECT YOUR PATIENTS AND PHARMACY FROM CYBERATTACKS

As a key member of the clinical team, patients rely on you for the safety of their treatment and personal information. Healthcare equipment and systems, including those used in the pharmacy, are considered a major target for cyberattack.

Healthcare system breaches present multiple risks

Global Healthcare Industry Statistics

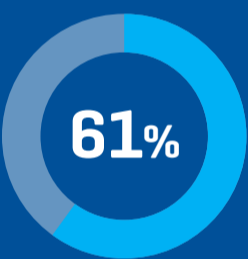

66%

of healthcare organizations were hit by ransomware in 2021³

94%

of healthcare organizations experienced major operational impacts from the attack³

61%

of attacks were successful in encrypting data³

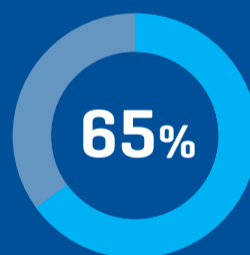

UP TO 1 MONTH

The time for 25% of organizations to recover following a cyberattack³

~10,1 MILLION€

Average cost to hospital due to a data breach⁴

65%

of data restored even after ransom paid³

Advanced Cybersecurity from ExactaMix Pro Automated Compounder

Baxter's **ExactaMix Pro** automated compounder brings advanced cybersecurity to the modern pharmacy. With the latest encryption technology, host-based firewall, role-based access, and certification to the FDA recognized UL 2900-2-1 cybersecurity standard, you can be confident that your compounder is well-protected against the next cyberattack.

An added dose of security in every bag you compound.
